# Anleitung zum Zaubertrick

1. Sortiere die Kärtchen.
2. Der Partner soll sich eine Zahl zwischen 1 und 63 ausdenken.
3. Frage bei jeder Karte, ob die Zahl darauf vorhanden ist.
4. Wenn die Antwort zu einer Karte „Ja“ ist, musst du dir die erste Zahl auf der Karte merken und sie mit „+“ dazu rechnen.
5. Wenn die Antwort zu einer Karte „Nein“ ist, geht es ohne Rechnung mit der nächsten Karte weiter.
6. Das Ergebnis nach allen Karten ist die gesuchte Zahl.
